

I love maths most when:

When it is easy and when I move up a sheet in morning maths or 99 club. When someone helps me.

When I move up in morning maths or 99 club. When we work together to find the answer.

When it's fun.

I like maths when i practise my times tables.

When we do event challenges, like for Christmas.

When the questions are easy and when we get to colour.

When I'm sitting on my chair. (Group work at the front with Miss Finch)

When we do the questions on the board.

When we do the Barvember challenges.

I like maths when you get to find answers and colour in different parts to make a picture.

When we work with our friends.

When i have completed a 99 Club sheet and when we are playing games. I like doing sodokus.

When it is a bit easy and a bit hard.

I love morning maths!

When I do it with my friends

When it is really tricky and we do Barvember challenges that are REALLY hard to work out. I like them because they're challenging and you have to work hard.

I like maths when it challenges you like the Barvember challenges. I like doing ot with my friends!

When we do maths in a group and when we have lots of time.

When we do the really hard Barvember challenges. I also like the White Rose maths booklets.

When it's statistics and when we work together on challenges.
